The BestPack™ MSDBF sealer is a unique multi-purpose machine. Featuring a convenient top 3-flap folder and bottom T-rail leading to an extended side-drive system, the MSDBF enables a person to efficiently erect, pack, flap fold, and seal a carton in one station. Dual telescopic masts allow for an extra 4" carton height extension on the upper assembly and two 110V UL-approved electric motors power the extended side belt drive.

All BestPack units are available in our standard baked enamel finish and food grade 304 stainless steel for 21 CFR 110 compliance.
