

PT Tape Head

High Speed Pneumatic Carton Sealer Tape Head

The High Speed PT Tape Head is our pneumatic activated tape head. This tape head can be used as either an edge sealing tape head where no corner seal is required or center sealing where a front and back panel tab leg is not needed. When used as an edge sealing tape head it is matched with our either our MT1E or MS1E type edge sealer. If used for center seal with no front or back tape tab leg it can be matched with most all of our carton sealers with some pneumatic and electrical modifications to the sealer.

The High Speed PT Tape Head is available in 2" when used for edge sealing and available in 2" and 3" when used for center sealing without front of back tab leg. This tape head is also available in food grade 304 stainless steel for 21 CFR 110 compliance.

Shown above is the BestPack PT High Speed Tape Head

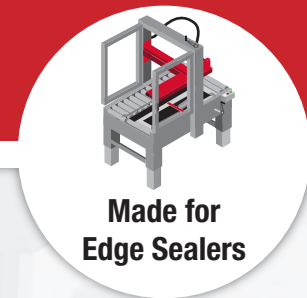

Key Points of the Tape Head

High Speed Design

Knurled Brass Roller

Made for Edge Sealers

Features

- Heavy Duty – Allows the Tape Head to be Durable and Long Lasting
- High Speed Design – Flexible for Standard and High Speed Applications Up to 75+ Cartons per Minute
- Kiss Touch Tape Application – Allows for Sealing Even Light Chipboard Cartons
- Brass Knurled Roller – Handles Acrylic and Hot Melt Tape with Minimal Adhesive Build-up
- Two Tension Adjustment Knobs with One Heavy Duty Tension Spring and One Light Tension Spring – Allows the Tape Head to Handle Acrylic, Hot Melt and Natural Rubber Adhesives
- SMC Oil-less Pneumatic Air Cylinder with Air Cushion – for Long Cylinder Life and No Maintenance

- Designed to Handle 1,000, 1,500, and 2,000 yard Length Machine Grade Tape Rolls
- Side Plate Cut Away – Easier Tape Threading
- Performs Best with Heavier Mill Thickness Tapes When Used for Edge Sealing Applications

Tape Head Options

- 2" Tape Head for Edge Sealing
- 2" and 3" Tape Head for Center Sealing with No Front Panel or Back Panel Tab Legs
- Food Grade 304 Stainless Steel
