

# TH Tape Head (Legacy)

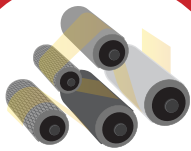

## Pressure Sensitive Carton Sealer Tape Head

The TH – Tape Head is BestPack’s oldest pressure sensitive tape head that is still in use with a long proven track record. The TH – Tape Head was the very first tape head in the carton sealing industry to offer an adjustable tab length. It is still used in some limited short tab and a few agricultural carton sealer applications. It is also used as a replacement tape head for very old BestPack carton sealers that are still being used.

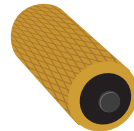

Shown Above is the BestPack TH High Speed Tape Head with Optimizing Arm and a Unique 5 Roller Tape Feed System.

## Key Points of the Tape Head

**Unique 5 Roller Tape Feed System**

**Knurled Brass Roller**

**Tab Length Adj.  
2" to 2.5"**

## Features

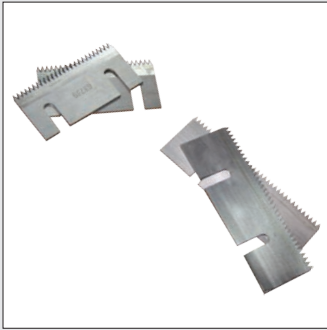

- Heavy Duty – Allows the Tape Head to be Durable and Long Lasting
- Standard TH Uses a Unique 3 Roller Tape Feed System for Reduced Number of Rollers to Feed Tape Around When Threading Tape in Tape Head (TH High Speed Tape Head Uses a 5 Roller System)
- Brass Knurled Roller – Handles Acrylic and Hot Melt Tape with Minimal Adhesive Build-up
- Tension Adjustment Knob with Heavy Duty Tension Spring – Allows the Tape Head to Handle Acrylic, Hot Melt and Natural Rubber Adhesives
- Designed to Handle 1,000, 1,500, and 2,000 yard Length Machine Grade Tape Rolls
- Tab Length Adjustment from 2" Long to 2.5" Long
- Pop-out Tape Heads – Tape Heads can be Changed Quickly and Easily

- Application Wipe Down Rollers/Arms have Full Spring Adjustment for Difficult Applications from very Soft Under-filled Cartons to Heavy Overfilled Cartons
- Tool Steel Knife Blades for Long Cutting Life

## Tape Head Options

- 2" and 3" Tape Heads
- Optimizing Arm for High Speed Applications
- Food Grade 304 Stainless Steel

# Recommended Spare Parts to Reduce Downtime

Cutter Blade\*
