FULLY AUTOMATIC RANDOM SIDEDRIVE

The BestPack™ CSX Series Fully Automatic Random Carton Sealer's advanced engineering provides the high speed output, and are built for rugged dependability. The CSX design uses three independent operating stations that include the Centering Station, Folding Station, and Sealing Station. For operational dependability and performance, maintenance free oil-less air cylinders are used. These features along with others in our CSX Series set BestPack apart from others in the marketplace. These sealers are designed to meet all your operator free random carton sealing applications.

All BestPack units are available in our standard baked enamel finish or food grade 304 stainless steel for 21 CFR 110 compliance. Custom sizes available for your application.
