The BestPack™ MBF-T is a bottom flap folder and packing station with a rotating/tilting bed that closes the bottom flaps and holds the carton in a tilted position while the operator fills the carton. The operator then activates a switch that causes the packing station to rotate to a standing position and the operator then pushes the carton to the next station. The ergonomic design of the tilting bed provides a better packing angle for the product being packed in the carton by the operator. The MBF-T is a great addition to BestPack’s flagship carton sealers and provides a total packing line solution.
### EXTRA ACCESSORIES TO IMPROVE EFFICIENCY

- **LOCKING CASTERS**
  The heavy duty locking casters allow the carton sealer quick and easy mobility to other locations.

- **FOOD GRADE 304 STAINLESS STEEL**
  This machine is available in 304 stainless steel which is food grade safe for food applications.

- **AIR ACTIVATED FOOT PEDAL**
  This foot pedal allows the user to determine whether air will flow through the machine or not.
