

## RS STAINLESS

### RANDOM SIDEDRIVE CARTON SEALER

The BestPack™ RS Stainless Steel Series is a Semi-Automatic Random Tape Carton Sealer built for speed and rugged dependability. Using side belt drives, the RS-S easily seals a wide range of random carton weights and sizes, with masts that allow for an extra 4" of carton height on the upper assembly. Able to effectively seal very light to very heavy cartons, BestPack's RS Stainless Steel Series sealers are used where there are wet environments. Units are available for either splash resistant or wash-down applications.

All BestPack stainless steel units are crafted with food grade 304 stainless steel for 21 CFR 110 compliance.
