

Dear BestPack Partners,

As you've probably already read, the state of CA has issued a "Stay at Home" order for the entire state except for essential critical infrastructure businesses. We are exempt from this order as we provide packaging supplies and equipment for essential infrastructure business such as food packagers, distribution centers, and the agricultural industry.

Here at BestPack, we will mostly be Working From Home, but will maintain essential operating and production staff to remain open to process orders and provide support to those industries who are assisting with the infrastructure of this country. We will maintain compliance with any state and federal orders, and provide the appropriate social distancing within our office.

We have inventory of our products, and will continue to maintain supply of our products. Our manufacturing facilities are still in operation in Taiwan and continue to be unaffected by the virus. We will maintain adequate supply of tape, equipment, and parts in order to continue our support to those essential industries.

Our main priority is the health and safety of our staff and the community. BestPack will do all we can to continue to service those essential industries until we are told that we are not able to.

We appreciate your understanding during this unprecedented time.

Stay Healthy and Safe!

A handwritten signature in black ink that reads 'Matthew Lin'. The signature is fluid and cursive.
